

Tree Free Paper Products

How do you reinvent paper? The answer is as sweet as it is smart. Each year over 900 million trees are harvested for paper alone. **Green²** is Tree Free paper made from sugar cane husk and quick growing bamboo, the most rapidly renewable resources. We didn't reinvent softness, strength, or absorbency... our paper products already stack up to those tests.

Bath & Facial Tissues, Towels, Napkins, Recyclable/Compostable Tableware, Straws, Copy Paper

Patent Pending
Recyclable/Compostable
Cups & Straws

- Green² products are Tree Free and made from sugar cane and bamboo grass, both rapidly renewable resources.
- Green² paper products are competitively priced.
- Green² paper products do not contain any fragrances, dyes, corn or wheat.
- Green² paper products are whitened with a natural alternative to bleach.
- Study shows higher sales for products with the **WOMEN OWNED** logo.

The very best of this generation, for generations to come.
