

Tailored Interventional Pain Management Course

Tailored course | Workshop @ world's largest dedicated pain hospital

Tailored Interventional Pain Management Course is organized for one doctor only & is the best possible course to learn & master all most all interventional pain management procedures (spine & pain interventions) quickly in few days.

In this Tailored Interventional Pain Management Course, you are alone in the whole batch with one or two faculty/instructor. One C-arm machine & instructor will be for you only, learn and don't stop till you master the procedures.

Choose your dates, decide what to learn, which interventions to be mastered and land at Kolkata. Any dates... any duration... any interventional procedures.

Come at world's biggest dedicated pain management hospital and feel proud to be a DARADIAN.

Fix your dates & land in Kolkata, rest will be taken care by us

We organise tailor made interventional pain management courses on spine & pain interventions for international doctors, for learning C-arm guided and USG guided interventional pain management procedures according to convenient timing of applicant. Practice on mannequin under C-arm and Ultrasound as long as you wish and till fully trained. This course is for any doctor with varying experiences, from no experiences to reasonably experienced. We prepare and design course depending on their need, skill and requirement. Be sure that you will be very confident of doing all most all interventional procedures only in few days.

One doctor in entire batch or in a small group

Sometimes workshop is done in small group if requested and arranged by participants themselves. **Personal care is taken to teach interventions to individual participant till they develop good skill.** They are also evaluated at the end to assure that they can do interventions in proper way

Know your Course Director

Dr. Gautam Das is presently the director of this tailor made course.

He is **president of Indian Society for Study of Pain**, the Indian chapter of IASP. He was chairman of India, Pakistan, Iran & Sri Lanka chapter of World Institute of Pain.

He is an **examiner of FIPP** examination.

He was former editor-in-chief of Indian Journal of Pain and currently editor in-chief of Journal on Recent Advances in Pain.

He is **author of 4 textbooks on pain management**, most popular being "**Clinical Methods in Pain Medicine**" and "Common Pain Management Procedure" video & text book.

He has about 100 publications and research works.

He is the director of Daradia Pain Hospital.

Be Master in Interventional Pain Management

Learn Interventional Pain Management from pioneers & best faculty who are authors of several textbooks on pain management. Become an expert in a very short time.

Highlights of tailored course

- Medical council accreditation.
- Aesculap Academy Fellowship certificate if one stays 7 days or more.
- One/More faculty exclusively for one participant for entire course.
- Didactic lectures to cover the desired topics. Discussion is aided with video demonstration where needed.
- Hands- on mannequin training. Practice on a human simulator (mannequin specially designed with a spine and simulated tissue). Practice as long as you are fully confident.
- Ultrasonography guided landmark identification for pain procedures on human volunteer.

What a Health Minister from South Africa says?

Benny Malakoane, health minister of free state of South Africa reviews pain management courses & pain management fellowship at Daradia The Pain Clinic. He says that one must join classes by Gautam Das at pain management fellowship at Daradia, otherwise he will certainly miss something very important in his life.

Review Tailored Course

Dr Ahmad Naseem; Riyadh, Saudi Arabia

Tailor made course is very informative and useful for anyone who want to expand his knowledge and experience in the field of pain management.

Dr. Ali Almerri; Kuwait

Daradia is the Best Pain Clinic to have hands-on-training. It is the best place to start your pain management journey. Tailored course was very useful & I recommend this interventional pain management course.

Dr. Seyed Ebrahim Sadeghi; Iran

This tailored course is very helpful for starting pain practice, specially because I could practice more and more on mannequin till I am confident.

Dr. Alireza Abdollahzadeh Baghaei & Dr. Abbas Moallemy From: Bandarabbas, Iran

Interventional pain management looks very simple after we attended this tailored course organized for two of us.

Dr. B. Tahamata, Indonesia

Great teaching. You may be disappointed when you arrive, but ultimately you will develop great respect. Learn interventional pain management procedures in very short time.

Dr. Al-Tameemi Abbood, Iraq

It was very useful interventional pain management course who wish to learn pain
