The Autism Project unites the special needs community across Yonkers and provides support through recreation and fun. Support for families we offer FREE workshops. Our Mission is to promote inclusion for the developmentally disabled individuals on the autism spectrum. Learning through social opportunity, training and education that is affordable and accessible are a few of the ways we bring the community out of isolation. TAP FLOS events are community gatherings offered for free or low cost.

This is our community's opportunity to help shed light on the need to assist those individuals with special needs and provide the skills they need to bring them back into the fold to become productive members of society. Together, our efforts can make a huge difference.
