Speed to Contact Launches Ricochet Mobile CRM for Android

El Segundo, California (June 27, 2018) – Speed to Contact, makers of the Ricochet cloud phone system and CRM, have announced the release of Ricochet Mobile CRM for Android.

Ricochet is an all-in-one sales solution, including a fast dialer, cloud phone system, rich lead management system, and flexible marketing automation platform. Ricochet Mobile CRM extends the reach of the platform from the desktop, helping sales and customer service teams remain productive from virtually anywhere. With Ricochet Mobile CRM, users can take and place calls, view and update lead information, and schedule tasks - with fast, easy access to all available data at once.

"We're focused on delivering tools that enhance sales productivity and improve conversions," said Beau Bratton, CEO, Speed to Contact. "Ricochet Mobile CRM for Android reaches another platform to help our clients reach their goals."

Ricochet Mobile for Android is a free download on the Google Play Store. Ricochet Mobile for iOS is also available on the App Store.

About Speed to Contact

Speed to Contact is an enterprise sales automation company and the makers of Ricochet. Ricochet serves inbound & outbound call centers looking to automate their workflow. It is the perfect blend of a phone system, auto dialer, customer relationship management system, and marketing automation platform. Current clients are from industries including mortgage, insurance, small business lending, solar, and education.
