

BARE &  
BEARDS

## Men's Skin & Wellness Clinic

*"Even when you're not him.....you're still him."*

Bare & Beards is a skin and wellness clinic for men of various shades of melanin. We believe great skincare is a necessity, not a luxury, and that is why our core focus is in preventative care for skin issues such as, ingrown hairs, razor bumps, acne, hyper-pigmentation, anti-aging, and more, all from a natural & holistic approach. We will customize a treatment plan to target troubled areas based on skin type, and create an at-home regimen to coincide with in-clinic treatments. The results are clear, fresh skin.
