

## Assurance Software Customers Share Best Practices and Celebrate Achievements During Inaugural Customer Conference

Wayne, PA. – November 13, 2018 – Assurance Software, a leading provider of comprehensive business continuity management and disaster recovery software and services, hosted its inaugural Surge customer conference October 28-30. During the conference, attendees learned about new and upcoming software innovations and services while guest speakers provided examples of business continuity best practices and Assurance customers shared successes enabled by their software applications.

"This was one of the most valuable events I've attended in the industry," said David Discenza, president of Discenza Business Continuity Solutions. "The keynote and breakout sessions were all valuable as was the opportunity to network with other business continuity professionals."

The conference was highlighted by an award ceremony during which, several customers were recognized for their achievements in business continuity, emergency notifications and resilience. Customers receiving awards for their outstanding achievements and business benefits enabled by the Assurance solutions included:

"The entire Assurance team is proud to partner with customers who are driving innovation across these areas and delighted to honor their achievements. We are also proud of the role that we can play helping them as they develop better ways to identify risks and protect their businesses from the impact of incidents and disasters," said Craig Potts, CEO of Assurance Software.

The 2<sup>nd</sup> annual Assurance Software Surge conference will be scheduled during the fall of 2019. Additional details will be published later this year.
