

Powerful things now come in even smaller cubes.

More Power

Fast-charges virtually all your mobile devices.

More Mobile

The world's smallest USB-C laptop adapter.

More Advanced

Sophisticated circuitry makes smarter decisions.

More Secure

Maximum energy protection for all devices.

PowerGear™ 60C

USB-C Laptop Adapter

60W • Ultra Compact • Foldable Plug

Universal Compatibility

USB PD Fast Charge

92% Energy Efficiency

Small and powerful.

The smallest 60W laptop adaptor in the world powerfully delivers up to 12x more power than most standard mobile device chargers while taking up less space than a 55cc shot glass.

3D circuitry design.

Micro reduction techniques combined with precision 3D design creates an advanced circuitry system that performs like no other charger available today.

The smartest USB.

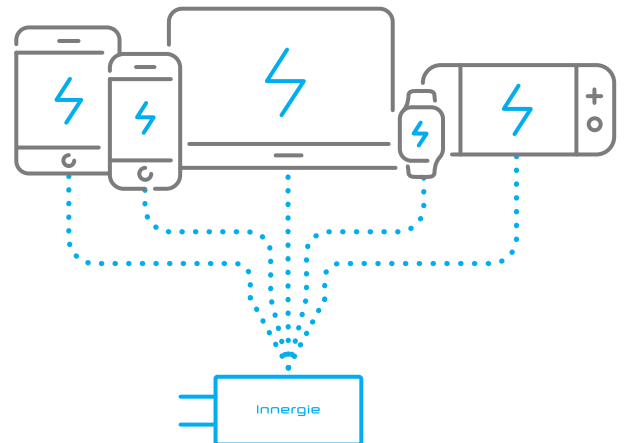

The latest and most advanced USB PD technology is capable of fast-charging virtually all mobile devices including smart phones, tablets, game systems, laptops and more.

Transformational power.

The transformer is the heart of any electronic device, which is why we've completely reconfigured and optimized ours for the fastest power delivery.

So powerful it charges virtually all your mobile devices.

With the latest USB PD detection technology, advanced 3D circuitry design, and totally rebuilt transformer, the surprisingly small PowerGear™ 60C USB-C Laptop Adaptor not only charges laptops but virtually all mobile devices while taking up a fraction of the space.

InnerShield™

InnerShield™ Protection

Only Innergie products come equipped with this powerful protection technology, offering a level of security no other device can match.

PowerDelivery

Power Delivery Technology

Power Delivery is the key to speed-up charging efficiency. Equipped with 5 different outputs, 5V, 9V, 12V, 15V and 20V. It provides the optimized power according to each device. Ultimate speed charging up to 60W will satisfy the need for a quick, speedy charging.

GreenSense™

GreenSense™ Promise

GreenSense™ is Innergie's commitment to the environment. We believe that protecting the planet is our duty which we start GreenSense™ with a simple mission - to make power products more energy efficient. 55CC (PowerGear 60C) made the history — 92% high-efficiency — the world's smallest and most efficient adaptor.

A warranty you can rely on— 24 hours a day for the next 3 years.

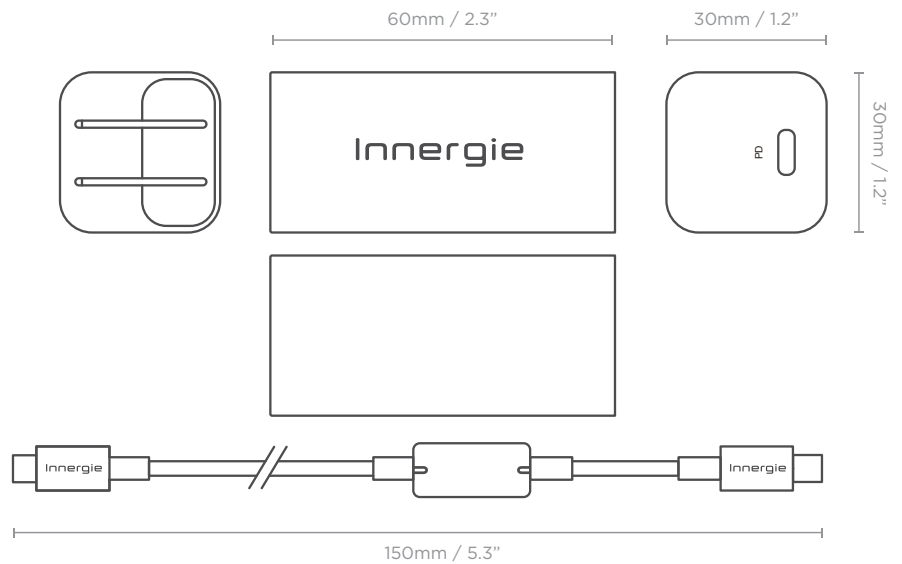

Innergie offers an industry-leading 3-year warranty on its entire line of chargers. Register your product online to receive the 3-year warranty.
