About the ACQ5 Global Awards:

ACQ Global Awards’ Objective as Always: To gather quantitative and qualitative information from and about the sector to be able to give a set of “Best of” awards. One of the industry’s favorite awards events was right to anticipate another record-breaking number of votes! The total number of nominations received stood at an amazing 98,621 our highest ever.

The poll was not only designed to reflect actual performance in any particular area of expertise, it was also aimed to reflect direct market share based on a number of criteria. Voters were encouraged to base their decisions on addressing professionalism: experience, value for money & responsiveness in order for ACQ to derive a numerical rating from 1 – 5. In that sense, this

poll should be considered a reflection of how professionals view any practice, individual or related sector supplier in terms of overall quality of service.
