

Wildology™

THE ONLY PET FOOD WITH SUPERLIFE PRO™

To give your pet the ultimate nourishment, we worked with experts in pet nutrition to develop a **patent-pending, guaranteed live, probiotic blend with superfoods, SUPERLIFE PRO™**. Our probiotics help by supporting the balance of good and bad bacteria in the gut – a key component in supporting overall wellness. We also included **superfoods like kale, chia seeds, pumpkin, blueberries, and coconut, rich in nutrients and antioxidants, to support whole body health and the immune system.** SUPERLIFE PRO gives your pet the boost he needs to feel truly healthy and happy.
