Facility Service Management at Your Fingertips

Vendor Selection. Insurance. Bonding. Compliance.

The tasks are endless. Scheduling of vendors takes a fair amount of choreography and the tsunami of paperwork that goes along with it can be overwhelming. Yet, the overall cleanliness of your building has a huge impact on everyone's well-being and bottom line. It can be a daunting responsibility for facility managers.

Until now.

Introducing ServiceSync.

ServiceSync is a web-based platform that streamlines the process of managing your facility by managing all the vendors, all the contracts, and all the vendor compliance with just a touch of a button. You can access it via computer, smart phone and tablet. This robust program will minimize your headaches so you can focus on what's really important -- your core business. System4 and ServiceSync will take care of the rest -- inside and out.

Benefits of ServiceSync

- Web-based access via computer, smart phone and tablet
- Real-time work order submission & tracking for all trades
- 24 hour call center
- Reduced cost by eliminating service calls
- Asset warranty and PM module
- Contractor compliance monitored
- GPS-based location check-in/ check-out (with alerts)
- Predetermined not to exceed cost controls
- Customized user roles
- Landlord v tenant responsibilities
- Robust reporting functions

Say goodbye to long-term contracts. System4 doesn't require them – we stand behind our guarantee.
