UNITY AUTOMOTIVE SUSPENSION COMPRESSOR LINE ANNOUNCEMENT
Unity Automotive is now offering all suspension compressors as full air supply units

Boynton Beach, FL, February 7, 2019 – Unity Automotive’s ELITE SUSPENSION is now offering a full line of compressors as full air supply units; including full cage, relays, and all necessary components for simple plug and play installation.

Cadillac SRX, STS

Volvo S90, XC60, XC90

Hyundai Equus

The compressor line covers over 70 SKU’s, with coverage for all makes and models. The addition of offering all units as full air supply units further solidifies Unity as an authority in air suspension compressors category.

“Unity is excited to announce the additional option to purchase the complete air supply unit for simple bolt in and bolt out installation. We will continue to offer the line of compressors sold separately for the customers who are on a tighter budget as well. Our company motto is ‘Suspension Simplified’, falling right in line with this exciting addition to our product offering,” said Alex Ende, CEO of Unity Automotive.

Unity has positioned themselves in the marketplace as leaders in the ride control category with a strong focus on Complete Strut Assemblies, Conversion Kits, and Air Suspension. All product lines are designed to offer the marketplace an option for premium quality products at competitive, realistic prices.

Unity Automotive – Suspension Simplified.
