

TimeLinx Expands Its Vineyardsoft/KnowledgeSync Technology Partnership

North Andover, Mass., Mar. 4, 2019 -- TimeLinx, a leading project and service management platform for the mid-market, today announced it is expanding its technology partnership with Vineyardsoft Corporation, the publishers of KnowledgeSync.

KnowledgeSync is an industry-standard alerting and workflow engine. It already powers the TimeLinx AlertPak, which today bundles 24 alerts into one affordable package.

“The AlertPak already brings significant value to our users with its real-time monitoring and notifications of a project’s mission-critical metrics,” said TimeLinx Executive Vice President and General Manager Jeffrey Gregorec. “In line with the technology and partner initiatives we announced in January, this next step in our Vineyardsoft partnership couldn’t have come at a better time.”

“TimeLinx has always been a great solution for showcasing the operational business intelligence that KnowledgeSync can bring to a company,” said Vineyardsoft Vice President of Sales and Marketing Don Farber. “But an expanded partnership in conjunction with our new release and TimeLinx’ upcoming release as well as our planned joint initiatives will make this a landmark year for both companies.”

TimeLinx and Vineyardsoft go to market through mid-market business partners, resellers and consultants. The two companies are dominant in that market segment with key mid-market ERP and CRM publishers, including Sage, Infor and Intuit.
