ATS and bisco industries Announce New Distribution Partnership

September 30, 2019 – NORWOOD, Mass. - Advanced Thermal Solutions, Inc. (ATS), a leading-edge engineering and manufacturing company focused on the thermal management of electronics, and bisco industries, a premier distributor of electronic components and fasteners used for production in aerospace, communication, computer, fabrication, industrial equipment, instrumentation, marine and military industries, are pleased to announce a new North American distribution partnership.

ATS thermal management products will be available through the bisco industries distribution network, which includes 48 locations across the U.S. and Canada to provide local service and fast delivery to customers across North America.

“bisco industries has partnered with Advanced Thermal Solutions, Inc to expand our product offering of thermal management devices,” explained Joshua UHlich, Director of Purchasing at bisco industries. “ATS brings a product offering that complements bisco’s current line card and fits strategically with our customer base. One exciting area of focus for ATS is their custom application segment; this is a strength that will offer more product solution opportunities for our customers.”

“ATS is excited to take advantage of bisco’s more than 40 years of experience and its local presence to reach a variety of industries and new customers,” said Karen Prince, Director, Global Distribution at ATS. “Our partnership with bisco industries will allow ATS to quickly respond to the needs of our customers and the markets that we serve.”

With its extensive array of off-the-shelf products and industry-leading thermal consulting and design services, ATS provides innovative solutions to meet the electronics industry’s toughest thermal challenges. This new distribution partnership provides customers with an additional channel to find ATS products quickly and reliably.
