**NO NEED TO HOLD'EM, PLAY NUTSO**

Potential  
"Value"

**125.8 Million Households in the US**

**23 Million Regular Poker Player  
(10.1% of the U.S. adult pop.)**

**2017: Games & Puzzles grew 24%**

## So, what is NUTSO?

NUTSO is a poker-styled card game designed for the entire family. It's like Texas Hold'em with a twist. It combines the structure of Texas Hold'em but adds wild cards to the game like UNO®. Your hand is only as good as the last player's move. Let's just say if you think you have the best hand, you're probably wrong. It's amazing how quickly your hand can go from outer failure to glorious victory. NUTSO contains 54 playing cards, NUTSO Bucks to bet, and Instruction

## What makes NUTSO Unique and Special!!!

NUTSO is the only poker-styled card game that allows players to use wild cards to change the outcome of the game. It's a family-friendly game where younger players can learn the core elements of playing poker but with a twist.

For more information on how to play, go to:
