

PRINCESS UNICORN: DRAGON ESCAPE – FACT SHEET

ABOUT

Diving into an exciting adventure running through a fantasy world filled with giant candies, tumbling cookies, enchanted water falls all while dodging fireballs and enormous rubber balls. Along the way you help Uni, a magical unicorn, with a secret superweapon. Collect items and power ups but watch out for the scary dragons. They will do everything to stop you!

Survive the attacks and capture the dragon's treasure!

Inspired by current tried and true popular mobile infinite runners, Princess Unicorn: Dragon Escape fires it up to whole new level!

FEATURES

Run your way through wafer platforms, jumping across gigantic tumbling cookies and sliding down enormous water slides. All while avoiding being roasted alive by the dragon's constant barrage of fireballs.

- Power ups are varied and depending on your objective can help you along your journey.
- Your superpower is a magical unicorn fart that kicks in at points in the game when you need it most. Used at the right time during a dragon attack, you can repel the dragon and capture all his jewels and coins.
- A lightning bolt icon can use your power fart to propel you forward at superspeed. You become invincible at superspeed as you crash through walls, leap across gaps capturing everything in your path.
- A super magnet will attract every coin in your vicinity.
- Candy multipliers will help increase your score dramatically.
- Special Unicorns are available: Piñata inspired Unicorn, A Zonkey that's a combination of Donkey and Zebra. A super special offering "Quarantine Pack".
- As a special added bonus you can combine power ups and use them together to really increase your scores

PRINCESS UNICORN: DRAGON ESCAPE – FAQ

Why isn't Princess Unicorn on more platforms?

We want more than anything to be on every platform ever created but truth be told we want to get it right on the two most popular ones first. Too many times, game companies jump the gun before they are ready.

How long is Princess Unicorn: Dragon Escape?

This running adventure is built on an infinity runner engine. It gets harder and faster the longer you play. The game will keep going as long as you do.

Who is Uni the main character?

Uni (uni) is the spirit behind all the available costumes she has. From a metallic and zonkey skin to a piñata inspired outfit. Uni has many forms but one mission: collect everything and repel the dragons attack.

Will the game keep evolving over time?

Plans are to have content added as soon as elements are available. From an ice dragon that freezes the platforms, the unicorns slides off to a very cold demise and an acid spitting dragon that just melts your heart.

PRINCESS UNICORN: DRAGON ESCAPE – FAQ

What was the inspiration behind some of the Unicorn creations?

For our Zonkey named Hugo inspiration came from flipping through a family photo album. Danny came across an old picture of his younger brother Michael in Tijuana Mexico sitting on a Zonkey. A donkey painted like a Zebra. The reason donkeys are painted like this is white donkeys didn't show up well in black and white photos.

The Piñata idea came from walking through a old Mexican market. They were hanging every where!

Our special offering "Quarantine Pack" as seen below was taken from current events. The TP Princess was a last minute addition. And well,... We thought a toilet paper hording unicorn was funny...

DANNY MARTINEZ - CEO

Born in Los Angeles California and with over 20 years in the supply chain business Danny decided he wanted to expand his horizons. As a child of the 80's, Danny grew up playing Atari 2600, Dragons Lair, Pacman and Asteroids.

Wanting to join the ever-expanding gaming industry but not sure how, the way eventually became clear. After a chance meeting at lunch, Brenda and Danny became lifelong friends. After Brenda showed Danny a small cat game that she created they thought this is something they can do together on a bigger scale. Princess Unicorn: Dragon Escape is the first of many games to come.

BRENDA WOLF - CHIEF VISIONARY OFFICER

Brenda has always loved videogames. She thinks of herself as not only a gamer but a collector. Her collection is close to two thousand physical games from console and PC generations. With Danny's help and everyone on the team Brenda hopes to earn her place as a videogame creator one day.

PRINCESS UNICORN: DRAGON ESCAPE – THE TEAM

AURELIO MALDONADO - CHIEF ART OFFICER

Not an accurate depiction of the average Mexican, despite being born and raised in Mexico City. Starting his career in graphic design and 3D art mostly out of spite, still, Aurelio managed to graduate at the top of his class in college.

With a degree in visual communication Aurelio is always watching YouTube tutorials along with Online courses to keep his skill set current and sharp.

PAWEL PIECIAK GAME DEVELOPER (2P Games)

Pawel Pieciak is a founder and games developer at indie games studio called "2P Games" based in Leamington Spa, United Kingdom. Since early childhood Pawel always had a passion for games. As a 13 years old teen started to create his own programs in assembler with a hope that someday he'll have his own games studio.

This eventually came true in 2011 and now, Pawel with over 13 years of professional games development experience creates his own games and provides programming and design services on a contract basis for various companies around the globe.

One of the projects that caught his eye was the mobile game "Princess Unicorn: Dragon Escape". "It was a challenge and I had a lot of room to release my creativity. This is what I loved the most about the project. Shame that we have to finish it already, there is so much more cool stuff we wanted to add. Plus I worked with an amazing bunch of people and we had a blast! Hopefully this is just the beginning of wonderful years to come" - says Pawel
