VIGOR

New Vandal Wrap LED Lighting Product Line

XtraLight Manufacturing launches vandal resistant LED lighting with their new VIGOR series

Houston, Texas: XtraLight Manufacturing, LTD today announced the launch of its VIGOR series. The vandal resistant luminaires were engineered and designed as a direct response to inquiries for LED lighting that meets specification requirements. Influenced by a partnership with the University of Houston's College of Engineering and Design, VIGOR features sleek lines that combine art with function. The series, with its vandal resistant enclosures, is designed to withstand the rigors of high traffic areas where security and safety are paramount. Products within the collection showcase unique features. The Vandal Wrap addresses the need for vandal resistant, LED lighting while maintaining sleek lines and the Floating Lens Troffer features an aesthetically pleasing architectural lens. The VIGOR features three distinct designs with a variety of dimension options. The series allows designers to combine the building's aesthetics, fixture functionality, and energy efficiency into one strong solution.

Ken McAlpin, President of XtraLight Manufacturing states "By engineering a vigorous series with strong, durable lenses and vandal resistant fasteners, we are able to meet the requests of our reps and customers. The Introduction of the VIGOR Vandal Wrap allows us to specifically address appeals that up until now could not be fulfilled. The VIGOR series is carefully engineered with consideration to every detail. Specifiers will be pleased to see this high quality, BAA collection."

Features and benefits of the **VIGOR** series include:

- Captive Tamperproof Fasteners
- Curved Sleek Lines
- Durable and Strong Lenses
- Symmetrical Light Distribution
- Architectural Design
- Made in USA, Manufactured in Houston, Texas
- Qualifies for Buy American and BAA
