

GET TO KNOW OUR COTTON

Brown Dog Hosiery socks are made from 100% American Grown Cotton and manufactured in the great state of North Carolina. Our casual dress socks are made of ring-spun combed cotton grown in the Southeast United States.

After harvesting, our cotton is baled and then transported to Thomasville, NC where it is cleaned, spun and combed. From the spinner, the clean cotton travels to Belmont, NC to be bleached and dyed to match our Brown Dog colors. The dyed yarn is then prepped and backwound onto cones for delivery to our Wilson Brown knitting facility, located in Haw River, NC. Your favorite Brown Dog styles are brought to life in Haw River, where they are knit by expert technicians, and finished and packaged right next door. Fun facts; it takes 4 minutes to knit one Brown Dog sock and our total manufacturing supply chain is a mere 126 miles through the state of North Carolina.

Finally, Brown Dog socks arrive in our warehouse, ready to be shipped to our favorite customers!

Wilson Brown Sock Company is dedicated to American manufacturing. It is our mission to *provide opportunities, strengthen families and share the good news.*
