INTEGRATIONS

Applicant Tracking Systems

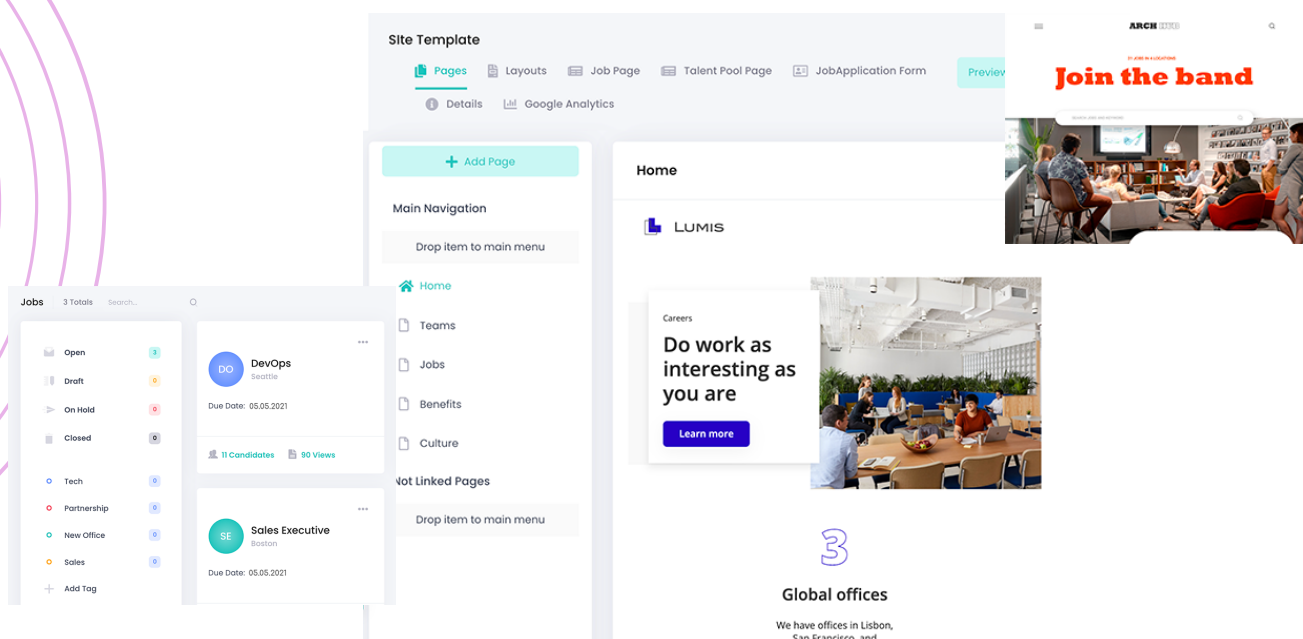

Talenteria can be easily integrated with most ATS for importing job openings and candidate application feeds.

Corporate Website

With our platform you can create custom career pages that match your corporate branding - no technical skills required.

Analytical Tools

Talenteria offers great tools for measuring your career site's performance, including integration with Google Analytics and Power BI for better data visualization.

ABOUT TALENTERIA

Talenteria is a tool that leads to the best hiring decisions, building successful teams and promoting company culture. We take advantage of the latest media trends, to create eye-catching career sites that showcase company identity and attract the right talent - without any help from a developer. Talenteria is a key solution for proactive recruiting, that helps companies recruit smarter, spending less time and money at all stages of the recruitment funnel.

Talenteria was founded from the success of the leading all-in-one HCM system for medium and large businesses - **Lanteria HR**. You won't find a better HRMS integrated with Office 365, and **over 200K users in 40+ countries** all over the world agree!
