ABOUT IYANLA

Iyanla Vanzant is the premier African American teacher, writer and speaker, on the subjects of spirituality, personal development and loving relationships. The author of 15 titles, which include five *New York Times* best sellers, Iyanla has touched the minds and hearts of more than 8 million readers in 23 languages. She is also the founder and Executive Director of the Inner Visions Institute for Spiritual Development conducts workshops and classes around the United States, throughout Africa and the United Kingdom sharing her brand of practical spiritual and personal growth tools and skills.

As the relationship expert, spiritual healer and star of the #1 rated OWN show and three-time NAACP award winning, *Iyanla, Fix My Life*, she has helped countless individuals and families on their paths to healing. Authoring books and producing television is not all that Iyanla has been able to master or accomplish. She is also a master herbalist—a craft she learned from her Native American grandmother. It is this gift and knowledge that she relied on to create and launch, MasterPeace, her line of exquisite bath and body products.

The MasterPeace Body Therapy products line was created in honor of her daughter, Gemmia, who passed away in 2003 following a battle with colon cancer. MasterPeace products tap into centuries of wisdom that define how to facilitate good health, equilibrium, and well-being. Cultures around the world have harnessed the power of herbal medicine and aromatherapy for millennia, and these practices are at the very root of modern medicine.

MasterPeace blends are made with pure plant extracts and natural mineral ingredients. Each blend is uniquely formulated and carefully curated by Iyanla's own hands. Over the years, crafting these blends has helped this highly sought-after spiritual leader maintain a state of grounded peace. MasterPeace is Iyanla's humble offering to the world to others find peace, calm, joy and rejuvenation; to help them cleanse their body while cleansing their energy.
