

INFUSODERM

This soothing gel-cream delivers a light veil of moisture to refresh the skin instantly. Powerful antioxidants boost the skin's resilience for a more youthful appearance. The light-as-air texture leaves a breathable, soft matte finish and healthy glow.

\$49.99

HOW IT WORKS:

This ultra-light moisturizer instantly refreshes the skin. It contains Snow Algae extract, which conditions and softens the skin as it replenishes moisture. Meanwhile, snow algae's great survival capabilities support the health of skin cells by improving their resistance to environmental damage. This impressive plant activates an enhanced defense system for the skin. Cloudberry offers antioxidant benefits to nourish and protect the skin and support collagen. The skin has a healthy appearance and radiant glow.

HYDRATE + BRIGTHEN

BENEFITS:

- Hydrates the skin
- Revitalizes and refreshes the skin
- Brightens and nourishes the skin
- Provides antioxidant defense against free radicals
- Helps skin maintain a youthful appearance appearance and radiant glow

KEY INGREDIENTS:

Sugar Technology

Xylitylglucoside, Anhydroxylitol, and Xylitol work together to boost the skin's natural moisturizing factor.

Caffeine

Antioxidant-rich caffeine helps to fight free radical damage for a more vibrant, youthful appearance. It also refreshes and energizes dull skin.

Snow Algae

Known for its longevity in harsh cold and snow, snow algae promotes youthful, healthy skin and provides a powerful defense against free radical damage.

Cloudberry

This antioxidant alpine plant is rich in vitamins A, C and E to help shield the skin against environmental aggressors.
