Tuesday 8:00AM: Women Of MENA In Technology, the largest Organization for Middle Eastern and North African Women In STEM, announces its Corporate Partnership with Sciex”

San Francisco, CA -- Women Of MENA In Technology, a Silicon Valley-based Non-Profit organization, the largest Organization for Middle Eastern and North African Women In STEM, announces its Corporate Partnership with Sciex. Founded with a mission of fostering diversity and closing the gender gap by empowering Middle Eastern and North African women in STEM, this partnership with further inclusion and equality in the workplace for MENA Women In Tech.

“We are thrilled to partner with Sciex to further our mission of creating an inclusive workplace. Diversity and Inclusion is everyone’s responsibility. To create diversity and to be inclusive means having ALL Women at the table, which includes MENA Women In Tech”, **said Sepideh Nasiri, Founder of Women of MENA In Technology.** “As technology becomes more integrated in our society and creates a new paradigm, it is up to us to be intentional about equity, inclusion, and diverse representation in the STEM space.”

“As a fellow woman engineer, I am excited about the opportunity for SCIEX to partner with Women of MENA In Technology. This partnership gives us a valuable opportunity to amplify women’s voices in STEM and work towards a common goal– to create a diverse, equal, and inclusive workplace,” **said Nichole Riek, Vice President, Quality and Regulatory Affairs, and Executive Lead for D+I efforts at SCIEX.** “We look forward to working with the organization, introducing their members to SCIEX and learning about new ways to improve our work environment for all women.”

Over the seven years since its inception, Women of MENA In Technology has been instrumental in elevating the profile of MENA Women. With a community of 50K+ members across 19 global cities and support from 1500+ technology companies, the non-profit has been enabling, educating, elevating and inspiring women of color through its programs.

Women Of MENA In Technology is a Non-Profit 501(c)(3) Organization established in Silicon Valley in 2015 with a mission to close the diversity and gender gap in STEM by connecting, mentoring, educating and elevating Middle Eastern and North African women in STEM globally. We have over 50,000 community members, 90% of whom identify as technical and self-reported as engineers, data scientists, researchers, founders, intrapreneurs, entrepreneurs, innovators and investors.

Vision: To be the destination for Middle Eastern and North African Women in Tech, where they can learn, inspire, connect, and thrive as a global community

Mission: To empower Middle Eastern women and girls around the world to strive in the fields of technology, STEM, innovation, and entrepreneurship despite the conventional beliefs, societal pressures, or inequality challenges.

About SCIEX

SCIEX delivers solutions for the precision detection and quantification of molecules, empowering our customers to protect and advance the wellness and safety of all. We have led the field of mass spectrometry for 50 years. From the launch of the first ever commercially successful triple quadrupole in 1981, we have developed groundbreaking technologies and solutions that influence life-changing research and outcomes. Today, we continue to pioneer robust solutions in mass spectrometry and capillary electrophoresis. Our customers are able to quickly respond to environmental hazards, better understand biomarkers relevant to disease, improve patient care in the clinic, bring relevant drugs to market faster and keep food healthier and safer.

That’s why thousands of life science experts around the world choose SCIEX to get the answers they can trust to better inform critical decisions that positively impact lives.
