

## External Release

Mid-America Aerotech, a leading provider of aircraft repair and maintenance services, announced today that it has completed the IP purchase of select hydraulic and pneumatic aerospace products from Moog Inc. The purchase, called Borg Warner Intellectual Property (BWIP), encompasses the complete design, spares, and repair, along with a wide variety of aircraft systems, including flight controls, landing gear, and fuel systems. Aircraft supported in this purchase include P-3, C-130, B-2, B-52, U-2 & E-2C. Mid-America Aerotech plans to manufacture and support these products at its facility in West Fargo, ND.

This partnership is a significant milestone for both companies, as this expands Mid-America Aerotech's product portfolio and capabilities, and positions it as a leading supplier of hydraulic and pneumatic components for the aerospace industry, with Moog Inc. knowing that these products will be serviced by a reliable and reputable source.

### About Mid-America Aerotech

Mid-America Aerotech is a leading provider of aircraft repair and maintenance services, that has headquarters in West Fargo, North Dakota, and is an FAA Part 145 Repair Station, AS9100D with ISO 9001 certification and is EASA certified for work in the EU. We are an AS9100D/AS9110C dual certified facility, which is unique. These standards are more stringent than ISO 9001 and are tailored to Aviation, Space, and Defense Organizations such as ours.

Mid-America Aerotech offers complete Maintenance Repair & Overhaul (MRO), Manufacturing, Engineering, and Cold Spray Additive Manufacturing Services. These offerings encompass all hydraulic, pneumatic, manufacturing, and all aerospace components.
