## WHERE IS THE OVERSIGHT?

### California Patients and Firefighters Deserve Better:

**Stand Against** the CA Board of Pharmacy's proposed regulations which would **block access** to safe Category 1 Compounds!

Keep glutathione and vitamin B12 infusions accessible in California **by Signing Our Petition!**

The California State Board of Pharmacy (BOP) could vote on these regulations at their board meeting on September 12. Whether the vote proceeds or is postponed, **your signature is crucial** in this ongoing effort to influence decisionmakers and make our voices heard.

Glutathione is a natural antioxidant that helps prevent cancer by repairing cells damaged by pollution, stress, and other harmful chemicals.

The National Institute of Health estimates that up to 43% of older adults have vitamin B12 deficiency.

Cancer is the leading cause of death among US firefighters, but glutathione has shown promising results in toxicity reversal.

Many Lyme and long COVID patients have depleted glutathione levels, making it harder for their bodies to detoxify from heavy metals, mold, and other pathogens.

## Take Action Today!

1. Sign and share this petition in your community and on social media using **#stopthebop**
2. Contact Gov. Newsom, your State Senator and Assemblymember to share your concerns
3. Join the movement at **stopthebop.com** and follow **@stop.thebop** and **@volunteerfirefoundation** on Instagram
