

# Instructor Testimonials

**Intertwined** is an AI-powered financial education solution for K-12 schools, universities, and banks. Our all-in-one platform provides standards-aligned learning content, adaptive quizzing tools, and simulations to immerse learners in real-life financial applications.

**Don Wettrick, CEO**  
**STARTedUP Foundation**

Financial literacy is normally dry and boring to most students. **Intertwined has changed the narrative.**

Engaging, modern, drives results, and **INSPIRES** students to be more financially savvy!

**José Mota, Signature School**

Evansville, IN - Intertwined is an unintimidating way for any student, **really anyone**, to start their understanding of, and work their way towards a **self-empowered future**.

**Maria Fuller, Tennyson High School**

San Francisco, CA - As a teacher with two class levels in the same period, I had to rely on a dynamic tool to assign different topics. Intertwined is an **excellent tool** made by students who know what is needed and expected by young students.

**Thomas Maugeri, Brookwood SD 167**

Chicago, IL - I really enjoyed the case studies that provided for supplemental learning. It is a very hands off experience for students, so it helped me become more confident in **trusting my students** to get their work done. **I loved it!**

**Sarah Ackerman, Speedway Jr High School**

Indianapolis, IN - Intertwined helped me address the lack of knowledge students have with the stock market. **Student scores increased** from the prequiz to post test in their understanding of the stock market!
