

Strategic Managed Services Partnership Formed Between Sage Solutions Consulting and Kavaliro

Sage Solutions Consulting and Kavaliro have formed a strategic partnership to expand their managed services offering and advance the supporting technology and service infrastructure for current and future managed IT services customers.

Sage Solutions Consulting's Managed Services division serves companies of all sizes from start ups to Fortune 500 across diverse industry sectors. Services include premium support teams, cloud management, robust cybersecurity management/ solutions, traditional help desk, hardware/ software acquisition and imaging, network management ,physical plant built outs for low voltage work, security equipment from cameras to access control and environmental monitoring.

Hugh Jetha, CEO of Sage Solutions Consulting, stated, " Our team is excited to accelerate our growth and expand our premier managed services footprint in Central Florida through this partnership. Our mission aligns with Kavaliro's commitment to delivering value, superior support, and better technology. "

"We're thrilled to partner with Sage Solutions Consulting and tap into their proven strength in the managed services space. This collaboration allows us to provide even more value to our MSP clients while also leveraging Sage's broader expertise across IT infrastructure, cloud services, and cybersecurity. Together, we're creating a more comprehensive and agile offering that empowers our clients to stay ahead in an ever-evolving technology landscape." – John Mahony, Managing Partner, Kavaliro

Jetha noted an ancillary benefit of the managed service relationship was that Sage is incorporating Kavaliro's "Work Force Solutions" capabilities into their enterprise client offering. Work Force Solutions provides top tier technology talent search and acquisition for permanent and contract placement.
