### **Why This Book Matters for PeachWiz and Its Audience**

As part of its Intellectual Enlightenment publishing division, PeachWiz developed the *Singularity* series to support educational programs, AI alignment research, and public media outreach for HAISE.ai—its flagship product that acts as a cognitive search engine for truth-seeking in the digital age.

“This book is more than a milestone for our author—it’s a blueprint for our company’s vision: restoring clarity, agency, and ethical stewardship in an AI-driven world,” said *Sera Lang*, Head of Strategic Content at PeachWiz, Inc.

## What the Book Covers

- The 2028–2030 **Cognitive Reckoning**: how AGI will reshape institutions and identity
  - The **Myth of AI Neutrality**: deconstructing false assumptions about algorithms
  - **Narrative as Infrastructure**: how perception is shaped by unseen code and media
  - Introduction of **HAISE**: PeachWiz's human-aligned AI companion for intellectual empowerment
  - A roadmap toward **stewardship over surrender** in the coming AGI decade
- 

## About the Author

**Alexious Fiero**, PeachWiz’s Chief Visionary Officer, is a cognitive architect, author, and system strategist. He is the lead designer behind HAISE.ai, and his work on narrative ethics, post-automation futures, and epistemic sovereignty has been featured across academic, policy, and media platforms.

---

## PeachWiz’s Commitment to Public Education & Ethical AI

This release supports PeachWiz's ongoing investment in:

- Public education initiatives for AI literacy
- Research partnerships focused on ethical AI stewardship
- Curated content platforms that promote intentional knowledge curation

It also serves as a companion piece to HAISE's onboarding sequence and media training tools for use in academic and civic settings.

---

## Availability

*Singularity-2030: The Age of Stewardship* is now available on Amazon Kindle. It includes interactive navigation, curated prompts for reflection, and access to HAISE-integrated learning communities built by PeachWiz.

For educators, media producers, and policy advisors interested in integrating the book into programming or workshops, PeachWiz offers licensing and training partnerships.

## **The Message**

*“By 2030, AGI won’t just be smarter than us. It will decide who we are—unless we decide first.”*

— Alexious Fiero

***Singularity-2030: The Age of Stewardship*** is the definitive guide to navigating the decade that will shape civilization. In this final installment of the *Intellectual Enlightenment* series, author and futurist **Alexious Fiero** delivers a powerful framework for resisting cognitive collapse and reclaiming agency in the age of AGI.

---

## **Why This Book Matters**

As Artificial General Intelligence approaches critical mass, Fiero identifies the deeper threat—not the machines themselves, but the breakdown of discernment, attention, and civic responsibility.

### **Key Focus Areas:**

-  The 2028–2030 AGI "Cognitive Reckoning"
-  Dismantling the Myth of AI Neutrality
-  Narrative Control & Epistemic Warfare

- 🕒 HAISE: A Human-Aligned AI Companion for Discernment
  - 🤝 The Rise of the Curator: Passive Consumers → Conscious Stewards
- 

## About the Author

**Alexious Fiero** is a cognitive systems strategist, public philosopher, and the creator of **HAISE.ai**—a conversational intelligence platform for digital discernment. His work sits at the intersection of ethics, narrative architecture, and technological futures.

---

## Who This Book Is For

- **Digital Citizens** facing an age of algorithmic chaos
  - **Leaders & Policymakers** shaping AI regulation and human rights
  - **Educators & Creators** building the next generation's intellectual defense
  - **Technologists, Strategists, and Public Thinkers** driving ethical AI alignment
  - **Every human being** who refuses to be replaced by noise
-

## 📱 Kindle Edition Includes

- ✓ Hyperlinked Navigation
  - ✓ Prompts for Reflective Curation
  - ✓ Access to the *HAISE Toolkit*
  - ✓ Invitation to the *Curators of Knowledge* Learning Community
- 

## 💬 Early Praise

“Fiero is what happens when a philosopher builds a firewall for the human mind.”

— *Information Warfare News*

“A luminous reckoning—and a rally cry for a thinking civilization.”

— *The Merge Magazine*
