TOM COSSIE

"Tom Cossie was what they used to call "A real record man." The saying went, "A real record man would sell his house if he believed in a hit record." They don't make them like that anymore. I guess old school "Real record men" didn't believe in jobs...they believe in music and musicians. They believed in people and the ability of those people to bring art to the world that touches other people."

Nile Rodgers: Producer, Guitarist, Songwriter, Author & Philanthropist

"Tom Cossie's Music Business Stories is a fun balance of music, personal, and family life."

Warren Kurtz: Goldmine: The Music Collectors Magazine

"If you're looking for a great read and love music, then this is the book for you."

Jack Forsythe: fmr Vice President Chrysalis Music

"This inside look at the biggest stars and events are captured here with love, charm and the view from a side never seen before. There is a wow in every chapter."

David Spero: Artist Mgr., fmr SR VP Rock and Roll Hall of Fame

"Each of us will draw a different lesson from his stories in this book. You will want to not just read it cover to cover as I did but keep it as a valuable archive to an era left behind, and a man who believed himself to success."
