RFID Products

Brooks Automation (Germany) GmbH – RFID Division

Brooks Automation Inc. is a global supplier of automation solutions headquartered in Massachusetts (USA).

Located in Germany, the company's RFID Division is dealing with development, production and integration of premium RFID system solutions.

The product portfolio comprises stationary and mobile reading devices operating at frequencies of 134.2 kHz (LF) and 13.56 MHz (HF) as well as gateways.

Apart from a dependable hardware the performance of the integration is also decisive for the success of a RFID project.

During various applications in numerous lines of businesses from the USA to Malaysia we acquired extensive skills and know-how in system integration.

We are your reliable partner and will accompany you from the idea to the „hand-over of keys“.

For the latest product information and reports please feel free to visit us at our website www.brooks-rfid.com.
