

A Rock Concert that feels like a Party

The Party Animals Live is an interactive Rock n Roll Musical for the whole family. The “party” starts the moment the first family arrives at the door. They are personally greeted with “welcome to the party” and are immediately escorted over to one of our face painters to get made up like their favorite character in the show.

After having their face painted, they meet one of our balloon artists who will create a colorful puppy dog, swan, hat, or balloon sculptor of the child's choice while telling jokes and playing games at the same time. After they are made up and have their balloon they are escorted into find their seat where the party continues.

There is “Kiddie” Rock Music already playing and as they locate their seats they meet stilt walkers and aerialists hanging above the stage. Once in their seats the kids can enjoy seeing themselves up on two giant round screens while a cameraman walks around capturing every single enjoyable moment.

After everyone has settled in, an MC takes the stage to pump up the energy, play some more games, and hand out a few give-a-ways. Then the concert begins!

The Party Animals, a Rock n Roll Band for the kids, made up to look like animals;

Kaiya the Kangaroo, **Walter** the Fox, **Brandon** the Bear, **Lance** the Lion and their friends **Dee and Jay**.

Now once on the stage they sing and dance to some of the coolest kid songs ever written. With fun beats and friendly lyrics the parents will soon find themselves dancing along with their kids.

The show is interactive and encourages audience participation. (Dance along to “Freeze Dance” and sing along with the “Rock A Byes”). Not only is there great singing and dancing but you really get to meet these characters throughout funny scenes that will have the children belly laughing in their seats.

We end the show with a huge participation number that gets the whole audience on their feet as we “Rock this House”.

As the families leave they are invited to a meet and greet with the cast outside to sign autographs and buy CD's.

The Party Animals experience lasts about an hour and a half; the perfect amount of time that leaves the kids wanting to come back for more. With all the colorful costumes, interesting characters, and catchy tunes, this is one family event that everyone can enjoy!

The Party Animals

Kaiya the Kangaroo

Keyboards & Lead Vocals.

Kaiya has a passion for life. She loves to eat pizza while hanging out with her friends. When she is not making music for The Party Animals, she can be found at her sewing machine creating another special outfit or accessory. Her goals in life are to be the lead singer in a rock and roll band and to have her own clothing line. Guess she is half way there.

Walter the Fox

Lead Guitar & Vocals.

Walter is the coolest one in the band (so he thinks). He loves to play Rock and Roll and drive around town on his motorcycle. He would really love to change his name to "X" because he doesn't feel Walter is cool enough. He likes anything that is loud and fast, but when he does slow down for a moment, you can catch him in front of a mirror. The only thing Walter likes better than Walter is a reflection of Walter.

The Party Animals

Brandon the Bear

Bass Guitar.

Brandon is a skateboarder from Seattle Washington. His favorite pastimes are eating and sleeping. Brandon is usually found falling down, around town, on his skateboard. He loves to ride, but isn't very good at it. He's Walter's best friend, even though Walter won't admit it. Brandon is very loyal, lovable with a heart of gold.

Lance the Lion

Drums.

Lance is a health nut. He loves to workout, eat right, and practice yoga on the beach. He is the epitome of a surfer dude. Lance is from Huntington Beach, California and pretty much lives in the sand. When he is not banging his drums for The Party Animals or catching a wave on his favorite board. You can catch him working out on muscle beach or meditating in Malibu. Lance likes to keep the peace between all of the band members and wants to help bring The Party Animals music to the mainstream.

The Party Animals

Dee and Jay

Audience Participation.

These are two of the cutest twin girls you have ever seen. They love to dress alike and act alike. In fact you are going to have a hard time telling them apart (if it wasn't for their names on their shirts).

They love to interact with the crowd during all of The Party Animals concerts while supplying other music when needed. They are full of energy and do everything together. They even finish each others sentences in rhyme.

Testimonials:

 This event was great. I took my 17 month old son and he enjoyed it. We got his face painted and a balloon shaped like a dog. It took him a while to warm up, but after a while I found him standing up, holding on to his balloon and trying to dance along with The Party Animals. The other children were truly enjoying themselves. I really liked the audience participation. The show was not too long and the energy and participation was excellent.

When we returned home, my son was trying to tell my 12 year old daughter about The Party Animals. We really had a good time.

 The show was awesome! I especially loved the adult friendly kid's music! I have been listening to the CD everyday since the show...and I don't have kids.

 This event was so fun! The Promoter personally greeted us. They had 4 face painters, not the usual one. 2 balloon animals guys, one who was on stilts. The pre-show began, as well as a wonderful, fun and entertaining show. The characters interacted with the kids. The show had great music and lots of energy. After the show all the characters personally greeted the kids, gave autographs, and the opportunity for photos. The same promoter wished everyone well on their way out. What a GREAT experience. We will go again, and have told all our friends!! We even bought the CD on the way out.

 The Party Animals are a hard-working group and have great appeal to small children, maybe up to age 7-8. I would say that 5-6 year-olds would be the primary age group. Excellent audience-participation and the Colony Theater is always a treat. I would recommend this show to other GoldStar members.

 So much fun for kids of all ages, even moms and dads! I would not have known about it if it weren't for Gold Star!

 Lots of fun for the kids (and not bad for adults either)

 Family fun-filled musical with 1 hour full of kid songs with a spirited ensemble to make it a great time for dancing and singing.

 Great Entertainment for Kids ages 4-9. Action packed and fun to watch!

 My kids and their friends had a grand time.

 My 5 year old loved this show! The characters were fun and the music was definitely danceable. They played freeze dance and even had a slight story with the show. Really fun day!

 I was very impressed with all the thought that went into this first concert and would definitely attend another. The costumes were great!

 This was a great concert that my 5 year olds loved. They are still talking about it three days later!!

 This was a great family event. My kids LOVED it!

 It's very enjoyable show, really great for children. My son love it so much and I'm definitely taking him back again to see the show.

 It was perfect for the kids - not too long, nor too short, and the band members couldn't have been nicer. Exactly as advertised!!!!

And these are just a few!!
