**New Singaporean House Music Label Dustpan Recordings Releases its First EP**

**Singapore — May 16, 2007** — Newly-formed Singapore-based house music label, Dustpan Recordings, has released its first EP, *The Skate Park Jam EP* by Kane Ian.

Dustpan Recordings is the first and only music label of its kind in Singapore, dedicated to promoting “everything house” and putting Singapore’s dance music scene on the map.

According to founder Kane Ian, the label’s birth and first release comes at a time when the dance music scene here is expanding, with more and more clubs and clubbers demanding quality house music. The label’s overall mission is to promote, create and distribute house music, and in doing so transmit its positive energy and message to people all over the world.

*The Skate Park Jam EP* by Kane Ian features three tracks and is being marketed to DJs worldwide.

The first track, “Burnin’”, is a soul-driven production that features smooth female vocals over a heavy bassline infused with a hint of electro chords.

Inspired by some “Late Night Movies”, the second track is sprinkled with deep, funky and jazzy elements with lush saxophone overlays. Being groovier and on the deeper side of things, this one is suitable for both early or really late sets.

“Mic That” takes a funkier and stompier approach to the dance floor with its quirky vocals, jackin’ bassline and rolling synths.

All three tracks are now available for purchase at leading online music stores *Call-a-record* (Germany), *Juno Download* (UK) and *Stompy* (San Francisco, USA).

Kane Ian is known for his deep and funky house rhythms and was most recently resident DJ at *Kazbar*. He has played at numerous clubs all over Singapore such as *Centro*, *Phuture*, *Attica* and *Happy*, as well as *The Tank* and *Laila Lounge* in New York City. He was also invited to play at the "We Love House 2nd Anniversary" party at *Zouk Singapore*, where his other productions "Breezy Kind of Love" and "Free From You" were performed live with producer, singer and songwriter Elisha.

The label's artist roster also boasts established DJs such as William from the Radiance Crew, New York based Kane Juan, who was the official DJ for the inaugural Singapore Day Afterparty held last month in New York and up-and-coming talent Saint Laurent from Switzerland, who is scheduled to produce the label's next release.

The label is also organizing an event at *Barbaablackchic* later this month:

What: Dustpan Recordings Presents Kane Ian, William, Saint Laurent, DJ Den and Daniel Storey

When: May 18th

Where: *Barbaablackchic*, 10 Perak Road
