

Global Resorts Network (GRN), Finally a Viable Home Business Opportunity

By Tom Dickson

Dated: 2007-06-29 19:06:53

Global Resorts Network is opening the doors to individuals from all walks of life. Whatever lifestyle or financial goals, individuals worldwide are gaining historically unparalleled advantages.

Global Resorts Network is opening the doors to individuals from all walks of life. Whatever lifestyle or financial goals, individuals around the world are gaining a unique and powerful opportunity to engage in a credible and viable home based business through Global Resorts Network. Finally there's a product with true value and is backed with 20 years of experience. Having a home based business with a credible long standing product affords individuals from all walks of life with a business they can be proud of as well as a chance to express their talents and strengths in a way that is many times otherwise limited or unlikely.

Tom Dickson of Indiana spoke to this issue during a leaders training teleconference through the Advantage Marketing Group. Mr. Dickson noted his appreciation of the opportunity to utilize his marketing skills, resourcefulness, and innovativeness to finally be able to develop a credible home based business. Mr. Dickson further explained that he was born with Cerebral Palsy, so having his own home business has been central to achieving the lifestyle of his goals. "The past three years," Mr. Dickson stated, "I've have tried many business opportunities, including: drop shipping, MLM and higher ticket direct sales opportunities. They all had the same thing in common- little to no product value to their intended market. This makes credible sales a remarkably challenging job rather than something you can have a passion about that produces immediate and long term income."

Global Resorts Network has emerged as an industry leader in providing discount vacations as well as providing an alternative to time share ownership. Members of Global Resorts Network may choose from two levels of membership. The Gold membership, which is only \$1,495, and the Platinum Lifetime Membership for only \$2,995. The Platinum Membership is valid for 100 years, and becomes part of your estate, and can be transferred to your children and your grand children, while the Gold Membership is valid for 3 years, and giving you access to 3 weeks of vacation throughout the year.

Global Resorts members enjoy 8 day - 7 night stays at luxury resorts for as little as \$298.00 and no more than \$699.00, with 5,000 4 and 5 star resorts to choose from worldwide... and if a resort is not currently shown as available, we have an excellent customer support department that will go out of their way to find what you are looking for. With such customer support it allows members to travel when, where and how they want. Unlike traditional time-share resorts, Global Resorts Network members are not hindered with soaring up-front costs, maintenance fees or blackout dates. Showing this is truly the timeshare alternative. This exclusive private luxury resort membership is now being offered online for the first time ever.

The Global Resorts Network allows the home business seeker the ability to take claim into a 7 billion dollar travel industry. Thus, providing a very lucrative home based business opportunity coupled with a powerful Perpetual Leverage compensation. In all my years of experience I've never seen anything of this quality made available to a home business opportunity seeker.

The Global Resorts Perpetual Leverage compensation is also a first in the industry for members to earn \$1,000 commissions on each qualified sale from unlimited width, as well as depth. Industry leaders have flocked over to Global Resorts Network to take advantage of this unique and powerful Perpetual Leverage compensation plan.
